PRINTERS TO THE QUEEN'S MOST EXCELLENT MAJESTY :

PUBLISHED AT THE GREAT SEAL PATENT OFFICE,

25, SOUTHAMPTON BUILDINGS, HOLBORN.

Price 3d.

1857.

A.D. 1857 N° 1304.

Anti-syphilitic Compound.

LETTERS PATENT to Théodore Lipkau, of 39, Rue de l'Echiquier, Paris, in the Empire of France, and of 4, South Street, Finsbury, London, Doctor of Medicine, for the Invention of "**AN IMPROVED ANTI-SYPHILITIC COMPOUND.**"

Sealed the 16th October 1857, and dated the 8th May 1857.

PROVISIONAL SPECIFICATION left by the said Théodore Lipkau at the Office of the Commissioners of Patents, with his Petition, on the 8th May 1857.

I, **THÉODORE LIPKAN**, of No. 39, Rue de l'Echiquier, Paris, in the Empire
5 of France, and of 4, South Street, Finsbury, London, Doctor of Medicine, do hereby declare the nature of the Invention of "**AN IMPROVED ANTI-SYPHILITIC COMPOUND,**" to be as follows, that is to say:—

This Invention consists in a method of preparing a soap or powder for the prevention of syphilitic diseases.

10 Take of bichloride of mercury, $1\frac{1}{2}$ drams 11 grains ;
 hydrochlorate of ammonia, $\frac{1}{2}$ dram.

Triturate in a stone mortar,—

 Tincture of thuja (occident.), a sufficient quantity ;

 Tannin, 1 ounce.

Lipkau's Improved Anti-syphilitic Compound.

Agitate the solution in another mortar; afterwards mix with it,—

Chloride of lime, $1\frac{1}{2}$ ounce;

Soda soap, 1 lb.;

Tincture of thuja (occident.) 2 ounces;

Oil of cloves, $\frac{1}{2}$ dram.

5

Make into a soap, which may be reduced to powder if necessary.

SPECIFICATION in pursuance of the conditions of the Letters Patent, filed by the said Théodore Lipkau in the Great Seal Patent Office on the 4th November 1857.

TO ALL TO WHOM THESE PRESENTS SHALL COME, I, THÉODORE 10
LIPKAU, of 39, Rue de l'Echiquier, Paris, in the Empire of France, and of 4, South Street, Finsbury, London, Doctor of Medicine, send greeting.

WHEREAS Her most Excellent Majesty Queen Victoria, by Her Letters Patent, bearing date the Eighth day of May, in the year of our Lord One thousand eight hundred and fifty-seven, in the twentieth year of Her 15 reign, did, for Herself, Her heirs and successors, give and grant unto me, the said Théodore Lipkau, Her special license that I, the said Théodore Lipkau, my executors, administrators, and assigns, or such others as I, the said Théodore Lipkau, my executors, administrators, and assigns, should at any time agree with, and no others, from time to time and at all times 20 thereafter during the term therein expressed, should and lawfully might make, use, exercise, and vend, within the United Kingdom of Great Britain and Ireland, the Channel Islands, and Isle of Man, an Invention of "**AN IMPROVED ANTI-SYPHILITIC COMPOUND**," upon the condition (amongst others) that I, the said Théodore Lipkau, by an instrument in writing under my hand 25 and seal, should particularly describe and ascertain the nature of the said Invention, and in what manner the same was to be performed, and cause the same to be filed in the Great Seal Patent Office within six calendar months next and immediately after the date of the said Letters Patent.

NOW KNOW YE, that I, the said Théodore Lipkau, do hereby declare 30 the nature of my said Invention, and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement, that is to say:—

This Invention consists in forming a compound, either as a soap or powder, in the following manner, to be employed for the prevention of syphilitic 35 diseases:—

Lipkau's Improved Anti-syphilitic Compound.

Take of bichloride of mercury, one and a half dram eleven grains ;
hydrochlorate of ammonia, half dram.

Triturate in a stone mortar,—

Tincture of thuja (occident.), a sufficient quantity ;

5 Tannin, one ounce.

Agitate the solution in another mortar, and afterwards mix with it,—

Chloride of lime, one and a half ounce ;

Soda soap, one pound ;

Tincture of thuja (occident.), two ounces ;

10 Oil of cloves, half dram.

Make into a soap.

The following is the method of employing the compound :—One ounce of the soap thus formed is dissolved in one pound of water, and the solution is employed to wash and inject the urethra or vagina within two hours after
15 contact.

This soap may be reduced to powder if required.

Having now described the nature of my said Invention, and the manner of carrying the same into effect, what I claim is, the combination of substances in the proportions for forming an anti-syphilitic compound, as herein-before
20 described.

In witness whereof, I, the said Théodore Lipkau, have hereunto set my hand and seal, this Second day of November, One thousand eight hundred and fifty-seven.

DR THÉODORE LIPKAU. (L.S.)
